

To whom it may concern,

I am writing this letter to express my interest in joining your team as a game programmer. I possess knowledge of C# and Unity and I am actively pursuing further education in Unreal and C++.

Being a gamer and a passionate D&D enthusiast, I approach my work with an innovative and curious mindset and I understand the key factors of crafting engaging gameplay mechanics and immersive moments that resonate with people and feel right.

I have also explored different areas such as multiplayer and network programming, shaders programming and visual effects, providing me with a good context of the requisites for anything that could be needed to be done.

Given my foundation in C# and Unity and my commitment to mastering Unreal Engine and C++, I am confident that I can meet the expectations for the role of a game programmer.

Thank you for reading my application.

Kind regards
Francisco Javier Hernández
